Leadership Lessons from the Life of Rasoolullah Nov 03 2022 There is a distinct difference between how one whose core faith is that Muhammad(Peace be upon him) was the Messenger of Allah and how someone who does not hold this belief, writes about him. This book, however, is not simply an analysis of history. It is a labor of love and reverence while being analytical and objective. It is an attempt by one who not only believes that Muhammad(Peace be upon him) was the best leader that ever existed but who believes in him and his message and wants to share it. The life of Muhammad(Peace be upon him) the Messenger of Allah is rich and full of lessons. It has been so well documented and so much has been written about his life over the centuries that another attempt is almost unnecessary. However, I decided to

write this for two reasons: to make the lessons from the life of Rasoolullah(Peace be upon him) relating specifically to leadership easily accessible to the seeker, whether Muslim or not; and to make an attempt to see how these lessons are applicable today in a world that is in principle, very similar to the world he lived in. My premise is this: Since he was able to change his world and take his people from being the most insignificant, oppressed and weakest to becoming the predominant, admired and strongest in just one generation; if we learn how he was able to do it, we will be able to learn how to succeed in our world today.

The Ideals of Global Sport Oct 02 2022 "Sport has the power to change the world," South African president Nelson Mandela told the Sporting Club in Monte Carlo in 2000. Today, we are inundated with similar claims—from politicians, diplomats, intellectuals, journalists, athletes, and fans—about the many ways that international sports competitions make the world a better place. Promoters of the Olympic Games and similar global sports events have spent more than a century telling us that these festivals offer a multitude of "goods": that they foster friendship and mutual understanding among peoples and nations, promote peace, combat racism, and spread democracy. In recent years boosters have suggested that sports mega-

events can advance environmental protection in a world threatened by climate change, stimulate economic growth and reduce poverty in developing nations, and promote human rights in repressive countries. If the claims are to be believed, sport is the most powerful and effective form of idealistic internationalism on the planet. *The Ideals of Global Sport* investigates these grandiose claims, peeling away the hype to reveal the reality: that shockingly little evidence underpins these endlessly repeated assertions. The essays, written by scholars from many regions and disciplines and drawn from an exceptionally diverse array of sources, show that these bold claims were sometimes cleverly leveraged by activist groups to pressure sports bodies into supporting moral causes. But the essays methodically debunk sports organizations' inflated proclamations about the record of their contributions to peace, mutual understanding, antiracism, and democracy. Exposing enduring shortcomings in the newer realm of human rights protection, from the 1980 Moscow Olympic Games to Brazil's 2014 World Cup and the 2016 Rio Olympics, *The Ideals of Global Sport* suggests that sport's idealistic pretensions can have distinctly non-idealistic side effects, distracting from the staggering financial costs of hosting the events, serving corporate interests, and aiding the spread of neoliberal globalization.

The Succession to Muhammad Jan 25 2022 In a comprehensive study of early Islamic history, Wilferd Madelung examines the conflict which developed after Muhammad's death for the leadership of the Muslim community. He pursues the history of this conflict through the reign of the four 'Rightly Guided' caliphs to its climax in the first inter-Muslim war. The outcome of the war, which marked the demise of the reign of the Early Companions, resulted in the lasting schism between Sunnite and Shi'ite Islam. Contrary to recent scholarly trends, the author brings out Ali's early claim to legitimate succession, which gained support from the Shi'a, and offers a convincing reinterpretation of early Islamic history. This book will make a major contribution to the debate over succession. Wilferd Madelung's book *The Succession to Muhammad* has been awarded the Best Book of the Year prize by the Islamic Republic of Iran for the year 1997.

Voice of Monarch Butterflies Apr 27 2022 To kindle a flame on Middle Eastern contemporary poetry in English that is relatively unknown to the Western readers, *Voice of Monarch Butterflies* brings together the poems by ten emerging to well-accomplished poets including Soodabeh Saeidnia, Mohammad Forouzani, Debasis Mukhopadhyay, Aimal Zaman, Abu Sufian, Ash Bahget, Anooshka Khazaeie, Ahmad Al-Khatat, Mohamed Samy and Latif Shareef Dhmayd who are originally from

different countries like Iran, Egypt, Iraq, Afghanistan, and even farther like Bangladesh and India. The shimmering elements of Middle Eastern poetry and art either flow visibly in their English words or hide behind the modern and fancy lines but finally show off themselves to the reader through the pieces and short poems, which have been selected among the captivating lines of joy, nature, life and love to despair, distress, grief and death. This collection is like a terrace on the hanging gardens of poetry inviting readers to hear the voice of migratory butterflies.

The Soviet writer Andrey Platonov saw much of his work suppressed or censored in his lifetime. In recent decades, however, these lost works have reemerged, and the eerie poetry and poignant humanity of Platonov's vision have become ever more clear. For Nadezhda Mandelstam and Joseph Brodsky, Platonov was the writer who most profoundly registered the spiritual shock of revolution. For a new generation of innovative post-Soviet Russian writers he figures as a daring explorer of word and world, the master of what has been called "alternative realism." Depicting a devastated world that is both terrifying and sublime, Platonov is, without doubt, a universal writer who is as solitary and haunting as Kafka. This volume gathers eight works that show Platonov at his tenderest, warmest, and subtlest. Among them are "The Return," about an officer's difficult homecoming at the end of

World War II, described by Penelope Fitzgerald as one of “three great works of Russian literature of the millennium”; “The River Potudan,” a moving account of a troubled marriage; and the title novella, the extraordinary tale of a young man unexpectedly transformed by his return to his Asian birthplace, where he finds his people deprived not only of food and dwelling, but of memory and speech. This prizewinning English translation is the first to be based on the newly available uncensored texts of Platonov’s short fiction.

Mohammed Mar 27 2022 “... But above all Essad Bey was a brilliant, intoxicating stylist. Bey's writing is of a kind that hardly exists among contemporary non-fiction writers, even less so among experts on Islam. It has rhythm and uses harmonious imagery; it is rich in semantic and syntactic variations; he understands the arc of suspense so well that it sometimes carries the author away from historical facts towards possible but not proven fiction. His biography on Mohammed has perhaps no place in scientific libraries – but one could not think of a more entertaining depiction, one which captures the spirit of early Islamic history above and beyond that of any source-critical monograph.” Navid Kermani

Familial Fitness Jul 31 2022 The first social history of disability and difference in American adoption, from the

Progressive Era to the end of the twentieth century. Disability and child welfare, together and apart, are major concerns in American society. Today, about 125,000 children in foster care are eligible and waiting for adoption, and while many children wait more than two years to be adopted, children with disabilities wait even longer. In *Familial Fitness*, Sandra M. Sufian uncovers how disability operates as a fundamental category in the making of the American family, tracing major shifts in policy, practice, and attitudes about the adoptability of disabled children over the course of the twentieth century. Chronicling the long, complex history of disability, *Familial Fitness* explores how notions and practices of adoption have—and haven't—accommodated disability, and how the language of risk enters into that complicated relationship. We see how the field of adoption moved from widely excluding children with disabilities in the early twentieth century to partially including them at its close. As Sufian traces this historical process, she examines the forces that shaped, and continue to shape, access to the social institution of family and invites readers to rethink the meaning of family itself.

Electrical Palestine Sep 01 2022 Electricity is an integral part of everyday life—so integral that we rarely think of it as political. In *Electrical Palestine*, Fredrik Meiton illustrates how political power, just like electrical power, moves through physical materials whose properties govern its flow. At the dawn of the Arab-Israeli conflict,

both kinds of power were circulated through the electric grid that was built by the Zionist engineer Pinhas Rutenberg in the period of British rule from 1917 to 1948. Drawing on new sources in Arabic, Hebrew, and several European languages, *Electrical Palestine* charts a story of rapid and uneven development that was greatly influenced by the electric grid and set the stage for the conflict between Arabs and Jews. *Electrification, Meiton* shows, was a critical element of Zionist state building. The outcome in 1948, therefore, of Jewish statehood and Palestinian statelessness was the result of a logic that was profoundly conditioned by the power system, a logic that has continued to shape the area until today.

Muhammad, the Messenger of Islam Dec 24 2021 Adil writes of the Holy Prophet and how he prayed for mercy upon his enemies. Despite the fact that they did him such harm and caused him so much hurt, he would not curse them, for all prophets' curses instantly take effect.

The First Muslim Jun 29 2022 The extraordinary life of the man who founded Islam, and the world he inhabited—and remade. Lesley Hazleton's new book, *Agnostic: A Spirited Manifesto*, is out now from Riverhead Books. Muhammad's was a life of almost unparalleled historical importance; yet for all the iconic power of his name, the intensely dramatic story of the prophet of Islam is not well known. In *The First Muslim*, Lesley Hazleton brings him vibrantly to life. Drawing on early eyewitness sources and on history, politics, religion,

and psychology, she renders him as a man in full, in all his complexity and vitality. Hazleton's account follows the arc of Muhammad's rise from powerlessness to power, from anonymity to renown, from insignificance to lasting significance. How did a child shunted to the margins end up revolutionizing his world? How did a merchant come to challenge the established order with a new vision of social justice? How did the pariah hounded out of Mecca turn exile into a new and victorious beginning? How did the outsider become the ultimate insider? Impeccably researched and thrillingly readable, Hazleton's narrative creates vivid insight into a man navigating between idealism and pragmatism, faith and politics, nonviolence and violence, rejection and acclaim. The First Muslim illuminates not only an immensely significant figure but his lastingly relevant legacy.
