Making Money with Storage Auctions Aug 08 2020 It is a little known fact that all across America each month, thousands of storage units are auctioned off because the tenants have failed to pay the rent. The vast majority of these units will be sold well below what they are worth. This creates an opportunity for the ambitious, risk taking investor. It is possible to buy these units and profit from the sale of the items they contain. I, personally, have seen profits in one day that put a years worth of stock market gains to shame. You might ask yourself why you have not heard about

these opportunities before. Well, the answer is that auction buyers know how much money they can make and are careful not to reveal their secrets. Inside this book, I break this code of silence. Learn how you can take part in this great opportunity!

[God Wants Me Here, for Now](#) Jul 27 2019 GOD WANTS ME HERE -- FOR NOW -- God's Protection through Psychiatric Medication Adverse Reactions is an account of the psychiatric medication mismanagement I have endured and that difficult journey. Though a college educated, confident and

involved, married mother of three, I learned the hard way to give grave respect to psychiatric medications. My travails have taught me to do my own research when accepting prescribed medications and not to trust the advice of doctors regarding the safety of the choice, the quantity prescribed, or the method to stop. I was totally unprepared for the level of suffering from antidepressant mismanagement (which was especially complicated by Gabapentin), the disbelief of doctors, or the judgment by family and friends. I had no idea that doctor training was so inadequate regarding those drugs or of the thousands of people, like me, who report their symptoms and are daily diagnosed as somatically preoccupied or with a conversion disorder. The pain caused by inappropriately prescribed drugs affected my jobs, my children, my finances, my public perception, and my involvement in life. (I have lost precious years of life because of psychiatric drugs.) My experience has awakened me to a desperate need in the medical community. I now advocate for informed consent of consumers, better training for doctors, insurance coverage for tapering, smaller manufactured drug quantities, penalties for doctors who cold turkey or fast taper a dangerous drug, and less flippant prescribing of those drugs.

Sketching Stuff Oct 29 2019 Charlie O'Shields is the creator of Doodlewash®, founder of World Watercolor Month in July, and host of the Sketching Stuff podcast. Every single day, for over three years, he created a watercolor illustration and wrote a short essay about whatever came to mind that day and posted it on his blog. These are some of the collected favorites along with some brand new musings. With over 180 illustrations, this book is part personal memoir and sometimes just a randomly fun romp through the sillier bits of this crazy world we all inhabit. Written to take on the impossible task of inspiring creativity, unleashing your inner child, and instilling hope, it will, at the very least, make you smile and touch your heart.
