**Going to the People** Feb 11 2021 Taking S. An-sky's expeditions to the Pale of Jewish Settlement as its point of departure, the volume explores the dynamic and many-sided nature of ethnographic knowledge and the long and complex history of the production and consumption of Jewish folk traditions. These essays by historians, anthropologists, musicologists, and folklorists showcase some of the finest research in the field. They reveal how the collection, analysis, and preservation of ethnography intersect with questions about the construction and delineation of community, the preservation of Jewishness, the meaning of belief, the significance of retrieving cultural heritage, the politics of accessing and memorializing "lost" cultures, and the problem of narration, among other topics.

**Ginseng Diggers** Aug 20 2021 The harvesting of wild American ginseng (*panax quinquefolium*), the gnarled, aromatic herb known for its therapeutic and healing properties, is deeply established in North America and has played an especially vital role in the southern and central Appalachian Mountains. Traded through a trans-Pacific network that connected the region to East Asian markets, ginseng was but one of several medicinal Appalachian plants that entered international webs of exchange. As the production of patent medicines and botanical pharmaceutical products escalated in the mid- to late-nineteenth century, southern Appalachia emerged as the United States' most prolific supplier of many species of medicinal plants. The region achieved this distinction because of its biodiversity and the persistence of certain common rights that guaranteed widespread access to the forested mountainsides, regardless of who owned the land. Following the Civil War, root digging and herb gathering became one of the most important ways landless families and small farmers earned income from the forest commons. This boom influenced class relations, gender roles, forest use, and outside perceptions of Appalachia, and began a widespread renegotiation of common rights that eventually curtailed access to ginseng and other plants. Based on extensive research into the business records of mountain entrepreneurs, country stores, and pharmaceutical companies, *Ginseng Diggers: A History of Root and Herb Gathering in Appalachia* is the first book to unearth the unique relationship between the Appalachian region and the global trade in medicinal plants. Historian Luke Manget expands our understanding of the gathering commons by exploring how and why Appalachia became the nation's premier purveyor of botanical drugs in the late-nineteenth century and how the trade influenced the way residents of the region interacted with each other and the forests around them.

*The Unity of the Proposition* Jun 05 2020 Richard Gaskin presents a work in the philosophy of language. He analyses what is distinctive about sentences and the propositions they express—what marks them off from mere lists of words and mere aggregates of word-meanings respectively. Since he identifies the world with all the true and false propositions, his account of the unity of the proposition has significant implications for our understanding of the nature of reality. He argues that the unity of the proposition is constituted by a certain infinitistic structure known in the tradition as 'Bradley's regress'. Usually, Bradley's regress has been regarded as vicious, but Gaskin argues that it is the metaphysical ground of the propositional unity, and gives us an important insight into the fundamental make-up of the world.

**Teaching the 'Slow' Learner in the Special School** Oct 29 2019 This book is a re-issue originally published in 1961. The language used is a reflection of its era and no offence is meant by the Publishers to any reader by this re-publication. Dr Cleugh was in charge of the course for teachers of so-called 'educationally sub-normal' children at the University of London Institute of Education. This work, an up-to-date guide at the time, was written by practising teachers who had passed through the Institute's course, and covers every part of the curriculum from the point of view of the 'slow' learner.

Conversation Mar 03 2020 How to How to Handle Mundane Conversations as an Introvert and Always Have Something to Say... Does your typical conversation with a casual acquaintance or co-worker result in the following... Long pauses? Stuck on what to say? Sick of talking about the weather or what you did at the weekend? Don't worry - you can "cure" your small talk problems in just 15 minutes...by applying a few simple conversation "hacks"...often used by the world's most charismatic people Here's just a fraction of what you'll learn: 8 killer open ended questions which can inject life into a dying conversation One question which will have the person's eyes light up immediately (warning: they may passionately talk for at least 10 minutes out of this questions alone. Use it wisely) How to use this small talk "superpower" to have engaging, deep conversations with anyone Think small talk has to be limited to one word answers? Think again How to use celebrities to spark a fun conversation, without resorting to boring "gossip" topics How to use questions to really get a person to open up (most shy people do this wrong, fix it in less than 5 minutes) A cool trick, used by old school (non-creepy) pick up artists so make someone feel involved in a conversation How to use "future projections" to get someone excited about the most mundane of topics In just 20 minutes, this short, read-it-in-one-session book, written in plain English, will cure your small talk woes. This are great for water cooler conversations. On first dates. Or when you're forced to see family members you haven't spoken to years. So if you want to get your hands on this "read in the morning, apply in the afternoon" guide...click "buy now with 1 click" and you'll get instant access

The Parabolic Teaching of Christ Mar 15 2021

*Scripting the Moves* Apr 15 2021 An inside look at a "no-excuses" charter school that reveals this educational model's strengths and weaknesses, and how its approach shapes students Silent, single-file lines. Detention for putting a head on a desk. Rules for how to dress, how to applaud, how to complete homework. Walk into some of the most acclaimed urban schools today and you will find similar recipes of behavior, designed to support student achievement. But what do these "scripts" accomplish? Immersing readers inside a "no-excuses" charter school, *Scripting the Moves* offers a telling window into an expanding model of urban education reform. Through interviews with students, teachers, administrators, and parents, and analysis of documents and data, Joanne Golann reveals that such schools actually dictate too rigid a level of social control for both teachers and their predominantly low-income Black and Latino students. Despite good intentions, scripts constrain the development of important interactional skills and reproduce some of the very inequities they mean to disrupt. Golann presents a fascinating, sometimes painful, account of how no-excuses schools use scripts to regulate students and teachers. She shows why scripts were adopted, what purposes they serve, and where they fall short. What emerges is a complicated story of the benefits of scripts, but also their limitations, in cultivating the tools students need to navigate college and other complex social institutions—tools such as flexibility, initiative, and ease with adults. Contrasting scripts with tools, Golann raises essential questions about what constitutes cultural capital—and how this capital might be effectively taught. Illuminating and accessible, *Scripting the Moves* delves into the troubling realities behind current education reform and reenvisioning what it takes to prepare students for long-term success.

**MOTION** Mar 27 2022 Forced to lie to protect her sister . . . From the New York Times Bestselling Author, Penny Reid One week. Home alone. Girl genius. Unrepentant slacker. Big lie. What's the worst that could happen? Mona is a smart girl and figured everything out a long time ago. She had to. She didn't have a choice. When your parents are uber-celebrities and you graduate from high school at fifteen, finish college at eighteen, and start your PhD program at nineteen, you don't have time for distractions outside of your foci. Even fun is scheduled. Which is why Abram, her brother's best friend, is such an irritant. Abram is a talented guy, a supremely gifted musician, and has absolutely nothing figured out, nor does he seem to care. He does what he feels, when he feels, and—in Mona's opinion—he makes her feel entirely too much. Laws of Physics parts 1 (MOTION) & 2 (SPACE) end with a cliffhanger. **Q Tasks, 2nd Edition** Aug 08 2020 Questions and questioning are key skills in successful learning. The original Q Tasks was instrumental in showing teachers how to give students the tools they need to develop their own questions and build critical thinking and inquiry skills. This new, totally revised edition continues to nurture and advance these crucial skills, and also offers Q-task extensions that introduce digital components that facilitate collaboration and are designed to appeal to tech-savvy students. More than 100 practical, flexible exercises in this remarkable book provide a smorgasbord of choices for teachers to use to help students formulate good questions in an information-rich environment. They put the students at the centre of their own learning as they build the library and research skills that are essential to our information age. Teachers will find innovative ways to help students go beyond memorization and rote learning of facts to focus on personal understanding, and true ownership of the learning experience.
