Implementing an Inclusive Staffing Model for Today's Reference Services Jul 07 2020 Reference service remains a core function of modern libraries. However, how and where we provide assistance has evolved with changing technologies and the shifting habits and preferences of our users. One way libraries can provide the on-demand, in-person assistance while managing and developing new services and resources that will benefit current and future users is to reconsider how their reference points and services are staffed and adopt a staff-based reference model. In Implementing an Inclusive Staffing Model for Today's Reference Services, Nims, Storm, and Stevens describe step-by-step how to transition from the traditional librarian-staffed reference desk to an inclusive reference model where non-MLS personnel are equipped and empowered to answer reference questions wherever these questions might be asked.

Classification & Adaptation Gr. 5-8 Nov 10 2020 Delve deep into ecosystems by classifying the beings that live there. Our resource breaks down the different kinds of animals before studying their different adaptations. Start off by answering the question: what do we classify? Then, break down this classification into kingdom, phylum, class, family, genus, and finally species. Compare the differences between warm-blooded and cold-blooded animals. Create a brochure on your favorite vertebrate before inventing your own invertebrate. Introduce the concept of adaptation and how animals have changed based on their environment. Take this further by conducting a case study on the adaptations of the koala. Finally, explore the concept of evolution and how this idea is backed up by fossil records. Aligned to the Next Generation Science Standards and written to Bloom's Taxonomy and STEAM initiatives, additional hands-on experiments, crossword, word search, comprehension quiz and answer key are also included.

Managing to Nurse Jul 27 2019 How does the contemporary restructuring of health care affect nursing practice? Increasingly since the 1970s, and more intensively under recent reforms, Canadian health care is the focus of information-supported, professionally based management. In *Managing to Nurse*, Janet M. Rankin and Marie L. Campbell probe the operation of this new form of hospital and its effect management on nurses and nursing. Written from the nurse's perspective, this institutional ethnography discovers a major transformation in the nature of nursing and associated patient care: the work is now organized according to an accounting logic that embeds a cost-orientation into care-related activities. Rankin and Campbell illustrate how nurses adapt to this new reality just as they, themselves, perpetuate it – how they learn to recognize their adaptations as professionally correct and as an adequate basis for nursing judgement. Although *Managing to Nurse* may contradict contemporary beliefs about health care reform, the insiders' account that it provides is undeniable evidence that nurses' caring work is being undermined and patient care is being eroded, sometimes dangerously, by current health care agendas.

On Transits and Transitions May 29 2022 Celebrations of the "transgender tipping point" in the second decade of the twenty-first century occurred at the same time of heightened debates and anxieties about immigration in the United States. *On Transits and Transitions* explores what the increased visibility of trans people in the public sphere means for trans migrants and provides a counter-narrative to the dominant discourse that the inclusion of transgender issues in law and policy represents the progression of legal equality for trans communities. Focusing on the intersection of immigration and trans rights, Josephson presents a careful and innovative examination of the processes by which the category of transgender is produced through and incorporated into the key areas of asylum law, marriage and immigration law, and immigration detention policies. Using mobility as a critical lens, *On Transits and Transitions* captures the insecurity and precarity created by U.S. immigration control and related processes of racialization to show how im/mobility conditions citizenship and national belonging for trans migrants in the United States.

Intro to Astronomy Parent Lesson Plan May 17 2021 This Intro to Astronomy Curriculum Guide contains materials for use with The Stargazer's Guide to the Night Sky. Lesson Planner Weekly Lesson Schedule Student Worksheets Quizzes & Test Answer Key 7th - 9th grade 1 Year Science 1/2 Credit Features: Each suggested weekly schedule has three easy-to-manage lessons which combine reading, worksheets, and vocabulary-building opportunities including an expanded glossary for each book. Designed to allow your student to be independent, materials in this resource are divided by section so you can remove quizzes, tests, and answer keys before beginning the coursework. As always, you are encouraged to adjust the schedule and materials as you need to in order to best work within your educational program. Workflow: Students will read the pages in their book and then complete each section of the study guide worksheets. Tests are given at regular intervals with space to record each grade. Younger students may be given the option of taking open book tests. Lesson Scheduling: Space is given for assignment dates. There is flexibility in scheduling. For example, the parent may opt for a M-W schedule rather than a M, W, F schedule. Each week listed has five days but due to vacations the school work week may not be M-F. Please adapt the days to your school schedule. As the student completes each assignment, he/she should put an "X" in the box.

La Salle in Texas Aug 08 2020 The excavation of the shipwreck La Belle grabbed public attention in Texas, across the nation, and overseas. Especially enthralled with the discoveries from the ship were schoolchildren. Pam Wheat-Stranahan, named by the Texas Historical Commission to head the educational efforts associated with the excavation's traveling exhibit, continued her work on this project after leaving the THC. Now, her teacher's guide, which includes a DVD of acclaimed documentary director Alan Govenar's films *The Shipwreck of La Belle* and *Dreams of Conquest* (about Fort St. Louis and Presidio La Bahia), is available for use in an exploration and discovery unit. Ideal for grades 4-8, the teacher's guide and films are designed for use with the book *From a Watery Grave*. Wheat-Stranahan has incorporated the standards for national social studies and the Texas Essential Knowledge and Skills. The resulting guide is user-friendly for teachers and provides interactive learning opportunities for students not just about Texas history but also concerning the age of discovery and the precursors to the American nation.

National Classification System for Contaminated Sites Sep 20 2021 This National Classification System for Contaminated Sites is a method for evaluating contaminated sites according to their current or potential adverse impact on human health and the environment. The system was developed based on a review of existing provincial, territorial, and international methods for classifying contaminated sites and a review of the availability of Canadian contaminated site information. The system uses an additive numerical method that assigns scores to contaminant characteristics, exposure pathways, and receptors. This document describes the development of the system and its purpose; the methodology of the system; and methods of use, including minimum data requirements, use of the detailed evaluation form and the short

evaluation form, and site classification categories.
