Upgrading Your Boat's Interior May 05 2020 The second in a series of highly practical, hands-on, step-by-step photographic manuals, *Upgrading Your Boat's Interior* fills a gap in the market for the DIY boat builder and repairer. This is a visual, hand-holding guide, dwelling on the practical details of upgrading every aspect of a tired boat's interior and related systems as it explains each procedure rather than focussing on the theory (which is relegated to an appendix, for those who wish to go further). It's surprising how a few simple renovations and upgrades can transform the look and comfort of a cabin. Anyone planning to attempt these projects will find this photographic step-by-step book a hand-holding godsend.

Royal Navy Motor Gun Boat Owners' Workshop Manual May 17

2021 During the Second World War, the Royal Navy's flotillas of small, fast and powerfully armed motor gun boats (MGBs) were looked upon as the 'Spitfires of the Seas'. Operating from their harbour bases around the south and east coasts of England, RN Coastal Forces crews would set out under cover of darkness to look for trouble with German shipping in the Channel and the North Sea. The vicious close-quarter skirmishes that ensued were every bit as deadly as the aerial dogfights acted out at 30,000 ft by their RAF Spitfire contemporaries. Written by the curator of MGB 81, with contributions from other specialists involved with the boat, the Royal Navy Motor Gun Boat Owners' Workshop Manual is published in association with the Portsmouth Naval Base Property Trust and fully illustrated with archive photos, technical drawings and detailed photography of MGB 81.
