Eternity's Mind May 29 2022 Eternity's Mind is the climactic final book in Kevin J. Anderson's Saga of Shadows Trilogy, which began with the Hugo nominee The Dark Between the Stars. The Saga of Shadows, as well as its predecessor series, the international bestselling Saga of Seven, are among the grandest epic space operas published in this century. Two decades after the devastating Elemental War, which nearly destroyed the cosmos, the new Confederation restored peace and profitable commerce among the peoples and worlds of the Spiral Arm. The ambitious, innovative Roamers went back to their traditional business of harvesting the vital stardrive fuel ekti from the clouds of gas giant planets, and the telepathic green priests of Theroc provided instantaneous galaxy-wide communication via their connection to the powerful and sentient worldtrees. The alien Ildiran Empire rebuilt their grand Prism Palace under the light of their seven suns, and their Mage-Imperator declared a new age of expansion and discover. But peace was not to last. The malevolent Klikiss robots soon found an ally in the ancient and near-omnipotent Shana Rei, destructive creatures who are the personification of darkness and chaos ... awakened after millennia of slumber to destroy all sentient life in the universe. The Confederation and the Ildiran Empire fought in every way possible, but the Spiral Arm itself seemed doomed. All across the transportal network, space is tearing apart, the links between the gateways are breaking down, the fabric of space unraveling. The worldtrees are dying, entire planets are engulfed in impenetrable black barriers erected by the Shana Rei, and the murderous taint has infiltrated the Ildiran race as well as Mage-Imperator Jora'h himself. Desperate for stardrive fuel to power the military and all space travel, the industrialist Lee Iswander has been extracting ekti—the blood of the cosmos—from mysterious giant nodules found floating in empty space, draining these “bloaters” dry by the thousands. But in doing so, is he weakening the only ally that all of civilization may have against the Shana Rei? A breathtakingly large canvas with a huge cast of characters, Eternity's Mind is the grand finale of a story as complex as any Science Fiction epic you will ever read. Great Sky River Oct 22 2021 The third novel in the award-winning author's classic Galactic Center series is available once again. "A challenging, pacesetting work of hard science fiction that should not be missed" (Los Angeles Times). Nearly 100,000 years after first contact with the machines that dominate the universe, a few hundred humans survive. Trapped on Snowglade, a barren world near the center of the galaxy, people like Killeen of Family Bishop and his child Toby are primitive scavengers, homeless and hunted by the ruling "mechs." Then suddenly, a strange cosmic entity—neither organic nor cybernetic nor living matter—reaches out from a black hole to speak with Killeen. But can this fallen descendant of starfarers understand this alien being in time—and seize his only chance to save his family and mankind from final annihilation?

Horizon Storms Sep 28 2019 Caught in the middle of a titanic struggle between two alien superpowers, the factions of humanity and their allies, the Ildirans, are under siege. Can they resolve their differences to fight a common threat? And for the new Ildiran Mage-Imperator, survival involves throwing off the choking traditions of the Empire - even if it might trigger a civil war. As old intrigues and dark secrets come to light, a man who is believed to be long dead returns with an ally who may save mankind. But this new fragile hope will be threatened by a fresh betrayal - the most bitter and brutal of them all...

Cherryh, author Jo Clayton's masterful Diadem Saga begins with an unforgettable tale of destiny, self-discovery, survival, and an extraordinary young woman's coming of age in a world that is not her own. Tales of Dune Jun 17 2021 Brian Herbert and Kevin J. Anderson have written thirteen international bestselling novels set in this epic universe. But the wealth of material leaves many side tales or interesting ideas that can be told, hors d'oeuvres to accompany the exotic main course. Sometimes, a short story is exactly what's needed. Tales of Dune collects eight of Herbert and Anderson's Dune short stories, ranging from the period of the Butlerian Jihad, to the time of young Paul Atreides, to a story set during the events of the novel Dune, to the very end of Frank Herbert's future history. These are the missing pieces in the epic of Dune.

The Warmth of Other Suns Feb 11 2021 NATIONAL BOOK CRITICS CIRCLE AWARD WINNER • NEW YORK TIMES BESTSELLER • In this beautifully written masterwork, the Pulitzer Prize-winner and bestselling author of Caste chronicles one of the great untold stories of American history: the decades-long migration of black citizens who fled the South for northern and western cities, in search of a better life. From 1915 to 1970, this exodus of almost six million people changed the face of America. Wilkerson compares this epic migration to the migrations of other peoples in history. She interviewed more than a thousand people, and gained access to new data and official records, to write this definitive and vividly dramatic account of how these American journeys unfolded, altering our cities, our country, and ourselves. With stunning historical detail, Wilkerson tells this story through the lives of three unique individuals: Ida Mae Gladney, who in 1937 left sharecropping and prejudice in Mississippi for Chicago, where she achieved quiet blue-collar success and, in old age, voted for Barack Obama when he ran for an Illinois Senate seat; sharp and quick-tempered George Starling, who in 1945 fled Florida for Harlem, where he endangered his job fighting for civil rights, saw his family fall, and finally found peace in God; and Robert Foster, who left Louisiana in 1953 to pursue a medical career, the personal physician to Ray Charles as part of a glitteringly successful medical career, which allowed him to purchase a grand home where he often threw exuberant parties. Wilkerson brilliantly captures their first treacherous and exhausting cross-country trips by car and train and their new lives in colonies that grew into ghettos, as well as how they changed these cities with southern food, faith, and culture and improved them with discipline, drive, and hard work. Both a riveting microcosm and a major assessment, The Warmth of Other Suns is a bold, remarkable, and riveting work, a superb account of an "unrecognized immigration" within our own land. Through the breadth of its narrative, the beauty of the writing, the depth of its research, and the fullness of the people and lives portrayed herein, this book is destined to become a classic.

Hidden Empire Oct 02 2022 In the far future, humanity began to search the stars, sending out vast spaceships that would take generations to reach their goals. In the depths of space they encountered the Ildiran empire - apparently the galaxy's only other intelligent civilization. The Ildirans came to Earth and passed on the knowledge of their stardrive, allowing humanity to expand to the stars. Almost two hundred years after that first contact, there are human colonies proliferating through the galaxy.
