***Managerial Economics*** Oct 02 2022 The goal of Thomas and Maurice's Managerial Economics is to teach students the economic way of thinking about business decision and strategy. This edition continues to develop critical thinking skills and provides students with a logical way of analysing both the routine decisions of managing the daily operations of a business as well as the longer-run strategic plans that seek to manipulate the actions and reactions of rival firms. Managerial Economics is a self-contained textbook that requires no previous training in economics. While maintaining a rigorous style, this book is designed to be one of the most accessible books in managerial economics from which to teach and learn because of its clarity of presentation and strong end of chapter problems. Rather than parading students quickly through every interesting or new topic in microeconomics and industrial organization, this 11th edition instead carefully develops and applies the most useful concepts for business decision making and strategic planning.

***Economics*** Aug 08 2020 The combination of David Begg with new co-author Gianluigi Vernasca is one of the many reasons that the 10th edition of Economics stands out from the crowd. After extensive research, they have revised the structure of the book to make it more concise, perfected their rigorous yet accessible approach, updated data throughout and created over 80 new example boxes. The result is a textbook fully equipped with everything you need to master your economics principles course.

***Principles of Economics*** Dec 24 2021 With an accessible approach, the third European edition of Principles of Economics provides students with the tools to analyze current economic issues. The book is underpinned by a focus on seven Core Principles, which help students to make the link between economic theory and practice. The 'economic naturalist' approach, supported by exercises, problems and examples, encourages students to employ economics principles to understand and explain the world around them. Developed from the well-regarded US textbook by Frank and Bernanke, it presents an intuitive approach to economics and is suitable for all students taking a Principles of Economics course.

Through six editions, students have cited the text as exceptionally user-friendly and readable.

**Contemporary Labor Economics Nov 10 2020** Contemporary Labor Economics 10e presents labor economics as an applied field of micro and macro theory, no longer an area tangential to the core of analytical economics, but rather a critical component of that core. In the Tenth edition, the authors deliver new and updated discussions of public policy issues and coverage of the current economic crisis, while still integrating traditional topics such as labor law, structure of unions, and collective bargaining.

**Essentials of Economics Sep 28 2019** Building on the tremendous success of their best-selling Economics, Brue, McConnell, and Flynn have revised their one-semester approach in Essentials of Economics, 3e to provide a fresh alternative for the survey course. The result is a patient, substantive treatment of micro and macro topics appropriate for the introductory economics student, and fully integrated in the digital environment to provide instant remediation and feedback through McGraw-Hill's innovative assessment tool Connect Plus Economics. McGraw-Hill's adaptive learning component, LearnSmart, provides assignable modules that help students master core concepts in the course.

**Economics of Development Nov 22 2021** This classic, bestselling textbook provides a comprehensive introduction to the field of development economics. The 10th edition of Tony Thirlwall's book, now co-written with Penélope Pacheco-López, provides a clear, comprehensive and rigorous introduction to the theory of development economics and the experience of developing countries. Balancing a historic approach with current data and references, it provides a wide-ranging analysis of the subject. This all-inclusive methodology succeeds at representing different schools of thought with a balance of micro and macro topics. An ideal textbook for undergraduate students of economics and other social sciences, it is also suitable for upper undergraduate and master's level modules on development economics as an option on a non-economics degree. New to this Edition: - A brand new chapter on human capital: education, nutrition, health, and the role of women in development - New material on the Sustainable Development Goals, the measurement of poverty, and the multidimensional poverty index - Discussion of randomized control trials - The role of structural change in economic development - New IMF lending facilities
